EBZ.com, makers of e-BIZ in a BOX, recently added built-in support for **PayPal**, the Internet's foremost instant and secure online payment service, as the latest enhancement to its award-winning e-commerce suite.

With this addition, e-BIZ in a BOX Web site subscribers can now process credit card orders without the requirement for a credit card merchant account. Better yet, they also benefit from **PayPal**'s industry-low transaction fees of only 1.9%.

**With millions of folks buying and selling over the Internet,
there had to be a way to accept payments inexpensively.**

True merchant accounts were not a solution for many smaller sellers. With the application fee, statement fee, processing fee, transaction fee, percentage and monthly minimum fee, there were just too many charges for the smaller seller to swallow. Now, with Website Source, you can sell online inexpensively.

Listed below are two companies you may want to consider: PayQuake and PayPal. We have found these providers to be affordable, reliable, and completely compatible with Miva Merchant e-commerce software, which is included for free with all Website Source accounts.

How to Get Started with PayQuake Merchant Account:

Determine which plan you would like to apply for, then complete the appropriate application. PayQuake is a 3-tier system. Each of the 3 plans is outlined, below. If you are not sure which plan to choose, calculate which plan is best for you.

If you are an International customer, complete the International Merchant Account application.

If you simply do not want a traditional merchant account, you may want to consider PayPal. Click here for directions.

Unlike traditional merchant accounts, with "Pay for Play", you try out the service before you make a commitment. The annual fee is not charged until you have been using the service for 60 days. No cancellation fees. **One small annual fee of \$49**, a percentage rate of 3.75% and a transaction fee of 50 cents. **No monthly fees — period.**

The Service Charge is a monthly fee that includes: Gateway Cost and Set-up, monthly Gateway Fee with **Authorize.net** and Online Statement service. This is included FREE of charge with "Pay for Play".

The three-tier system is convenient. The merchant account dynamically grows according to the seller's needs. Each month

Every month when you receive your statement, you will see what each type of account would cost you in fees. If you have the "Pay for Play" plan and see that the Select plan would save you money, just click the link and switch. When the Pro becomes more economical, switch again. Your merchant account grows along with your business.

If you would rather not have a traditional merchant account, PayPal may be the solution for you.

PayPal will work directly with Miva Merchant ecommerce software. **It costs nothing to sign up for a Personal Account.**
